(54) Title: A METHOD AND SYSTEM FOR TRIGGERING NETWORK ACCESS

(57) Abstract: The present invention makes it possible that de-  
vices are triggered by RF signals and the owner of the RF chip re-  
sponsible for the triggering can receive a financial compensation  
for this. Hereto a method and a system for triggering a first-device  
by a RF signal and logging the triggering are presented. The sys-  
tem comprises a RF chip of a first party. The first device comprises  
communication means for receiving a RF signal from the RF chip  
and communication means for communicating with a network or  
server of a second party.
